

## **HISTORY OF ZSPCA**

The history of present Zanzibar Society for the Prevention of Cruelty to Animals (ZSPCA) was start since 1930s where first established by colonial under the supervision of Royal Society for the Prevention of Cruelty to Animals (RSPCA). It deal with construction water reservoir where animals use for drinking in different areas in Zanzibar town, it deal with management of bully fighting conducted at that time in order to maintaining welfare of animals used for that activities. It was stopping working for several years until we re-establish again in 2007.

The motivation of founder of new ZSPCA start since 2001 where he was a science subject teacher as Kwantipura Secondary School where he establish Monkey kindness Club, the club which run by World Animal Protection (WAP) previous known as World Society for Protection of Animals (WSPA) in different African countries and he become a teacher leader for that club.

After working for several months as teacher leader in 2002 he appointed as Coordinator for all kindness clubs found in Zanzibar (Unguja and Pemba), during his work as coordinated he establish an umbrella organization known as Zanzibar kindness Club Association (ZKCA) the target was to register as Non Government Organization (NGO) but according Zanzibar law it fail to be registered as NGO because some of its members were government schools where NGO does not required to have such combination of membership.

For that reason new organization were established, the time when we decide the name of new organization we come across to see one of water reservoir for animal to drink opposite Ng'ambu Police Station with that

name so we decide to use the same of that organization because it fulfill our need and aims of establishment of such organization.

In July 2007 the Zanzibar Society for the Prevention of Cruelty to Animals (ZSPCA) re-established again and receiving its official registration from Society Registrar on 14<sup>th</sup> February 2008 with registration certificate N0: 562. It starts to work officially on January 2009 until today.

The Founder and Executive Director of New Zanzibar Society for the Prevention of Cruelty to Animals (ZSPCA) is Mr. Ali Abdalla Juma, since 2009 ZSPCA continuously provide services to local community on Zanzibar on free rural animal's clinic, free rabies vaccination, tree planting, humane education, environmental conservation education and alternative and suitable income generation activities.

### **ZSPCA VISION**

**The vision of ZSPCA is** “to have Zanzibar local community with high sustainable development, animal cruelty and environmental degradation reduced for 75% by 2020”

### **ZSPCA MISSION**

**The mission of ZSPCA is** “to prevent cruelty to animals, protection of environment and improving life standard of local community by providing humane education, environmental education, providing free veterinary treatment, mobilizing peoples to engage in tree planting activities and promotion local community development through initiation of suitable alternative income generating activities to local communities to improve life standard of the peoples in Zanzibar”.
